

Company overview

For a long time, Artin Trading Company has started its activity in the field of pistachio production and distribution by utilizing advanced machinery and owning large gardens. This company has conducted to become one of the main producers and exporters in the Middle East by relying on its years of experience and technical knowledge. Owing to the fact that we do not utilize chemical fertilizer in the production task, we have been able to present healthy and top-rated products in the market. Moreover, Artin Trading Company has put into service state-of-the-facilities in order to improve the customers' satisfaction. By developing its product in terms of quality and quantity, we aimed to expand our share in the international markets and become one of the most reputable brands worldwide.

Business description

Pistachio is a popular product due to its numerous health benefits and delicious taste. The most common propagation procedure of the pistachio tree is seed planting. The Middle East is a suitable region for pistachio production due to its appropriate geographical location and moderate climate. This product can be considered in a diverse range of food recipes such as main courses, desserts, and sweets. Furthermore, this product has numerous health benefits such as heart function improvement, iron absorption development, immune system enhancement, etc. There are various types of pistachio presented in the market such as Jumbo pistachio, Round pistachio, Super Long Pistachio, and Badami (semi-long) pistachio. China, Germany, and Italy are the biggest importers of this product respectively. Artin Trading Company has become the biggest producer and exporter of pistachio in the Middle East by owning vast gardens.
